Nursery Teacher Training & Montessori Teacher Training

Montessori Teacher Training

INTEOL has a Montessori teachers training course that enables the best talents learn about the Montessori training which is the most successful models followed across the globe to teach students in the age group of 2 – 12 year old. This course is aimed at teachers that want to carve a niche for themselves as Montessori and preschool teachers.

This method of learning helps facilitate learning among young minds and is especially important for the social, physical and cognitive development of children. Teaching is via the Maria Montessori method of teaching and allows children to learn and develop their skills gradually.

This is a method that stresses on an interactive model of teaching rather than one way facilitation in the classroom. The teachers teach in a way that is unique and this is one of the more successful models of education that is championed the world over. The Online Montessori Teachers Training Course has been developed keeping in mind all the practices Maria Montessori has espoused.

• Certificate in Montessori Teacher Training Course

09674933512

TEFL/TESOL or Teaching English as Foreign Language / Teaching English to the Speakers of Other Language requires different set of skills all together. It is different from traditional teaching and works differently for both the teachers and students. Hence a professional training can be effective to shape career with required skills and abilities. The demand for quality EFL teachers is relatively high all across the world. There is a strong reason behind that. All the countries and the people in it are really keen to participate in the international operations and get a good boost in their professional career as well. This is the age of globalization and the importance of global communication cannot be overlooked under any circumstances. The effective purpose of international communication has been experienced by almost all the professional sectors and also has become important in personal level. Hence TEFL is the new door of opportunity among all the global careers available.

- The EFL teachers need to take huge responsibility in their professional field as they need to work with effective English instruction and educate people with that. It is important for the EFL teachers to understand that professional excellence of other people is actually depending on their quality of performance. So there is no room for experimentation and self-learning. A professional course will guide the aspiring and working EFL teachers with methodologies and techniques to enhance and upgrade skills.
